Lately **Electrical and Smart Information Networks, Data Transmission and Smart Grids** are in constant development in the urban environment, in companies, buildings and in the mobility and transportation sectors.

In a context of optimization and energy saving, sending and sharing information, it becomes necessary to bring concrete project solutions-innovations Integrators and Solution Makers together with Subcontractors able to take their techniques, their expertises and new technologies into this domain.

Our company abe, organizer of business-to-business events, is convinced that a traditional tradeshow approach is no longer enough to meet these challenges.

REI Meetings is a business meeting event located in the heart of the region Auvergne-Rhône Alpes, a European crossroad which has a solid industrial base and a large tertiary sector.

The region is attractive and the scope of this event exceeds this area of excellence. Electrical and Smart Information network and Smart Grids are growing everywhere in Europe and beyond. There will be more energy consumption and exchanges of information, and as such the need to save money and optimize energy is expanding. The services in the fields of energy and Smart Grids - Electrical Networks and Intelligent Information will make the difference tomorrow!

REI Meetings 2018 is an event that focuses on the quality and personalization of the contacts: **relevant, targeted and effective appointments** that save you more than just time. The exclusive organization of meetings between suppliers and contractors, as well as our methodology, guarantee **high added-value meetings**.

BUSINESS MEETINGS HOW DOES IT WORK ?

01

The registration form > Fill in the online form describing your expertise and / or services and / or projects and requirements.

02

Technical profile > Consult the catalog of registrants. Send a meetings request to companies that may meet your needs.

03

Your personalized meeting schedule > Receive your meeting schedule and personalized conferences. Meet the right people during the 40-minute meetings and build your future strategy through the conferences.

THE CONFERENCES (around 15 conferences over 2 days):

Developed according to hot topics that you provide us with, they will be hosted by professionals (suppliers, manufacturers, experts, decision makers) and will allow you to enhance your knowledge on a specific subject and enrich your exchanges with your future partners.

Exhibitors and contractors will animate conferences on issues related to technology, innovation and regulation.

Do you want to share your experience with your counterparts? Please contact : +33 (0) 1 41 86 41 10 - xsicard@advbe.com
